

2003 World Cruise

CRYSTAL SYMPHONY
WONDERS OF THE SOUTHERN SEAS

Tuesday, February 04, 2003

Greetings Antarctica and Australia Adventurers,

Thank you for coming to show your appreciation this evening for our Symphony Culinary Wizards. Many of our galley crew wish to remain behind the scenes and let their food "do the talking," but once we lure them away from their pots and baking pans they are very good company.

Tomorrow evening we will be delightfully entertained by Lucie Arnaz. She is as personable as she is talented and I hope you will have a chance to see and visit with her around the ship.

Buenos Aires is just around the corner. Have an enjoyable time in this picturesque and very urban city of South America. I'll be back with the next newsletter the night we sail from Buenos Aires.

Before signing off.....

What thing connects the following points:

- a) Springer Mountain and Mt. Katahdin
- b) Brindisi and Rome
- c) Prudhoe and Valdez

Wishing you a restful and peaceful night,

Rosemary Barnhart
2003 World Cruise Hostess

Answers to the last newsletter, 03.Feb.2003:

Some surnames have entered into the language representative of their respective contributions. Napoleon i.e.: became a pastry; Wellington..a beef. From the absurd clues given, which surname is called to mind:

- a) Scottish pavement - *Macadam*
- b) A button front Earl - *Cardigan*
- c) A Teutonic gas-bag - *Zeppelin*
